

AJA Social Studies Strands

2010-2011

	Human Systems and Economic Activities The study of how and why people construct organizations and systems; the ways in which people connect locally and globally; the distribution of power and authority.	Social Organization and Culture The study of people, communities, cultures and societies; the ways in which individuals, groups and societies interact with each other.	Continuity and Change Through Time The study of the relationships between people and events through time; the past, its influences on the present and its implications for the future; people who have shaped the future through their actions.	Human and Natural Environments The study of the distinctive features that give a place its identity; how people adapt to and alter their environment; how people experience and represent place; the impact of natural disasters on people and the built environment.	Resources and the Environment The interaction between people and the environment; the study of how humans allocate and manage resources; the positive and negative effects of this management; the impact of scientific and technological developments on the environment.
